Reasons Companies Are Switching to **flair**^{HR}

Improved Flexibility

Easily customize HR and recruiting processes to the requirements and standards of specific business entities, locations, and teams.

Modular Platform

flair's features cover the entire employee lifecycle, from recruiting to performance. Choose modules according to your priorities and grow at your own pace.

Greater Efficiency

Streamline your people processes with automated workflows and AI assistance, powered by the leading enterprise platform Salesforce.

Advanced Reporting

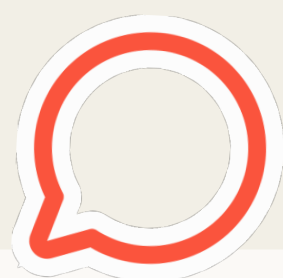

Seamlessly integrate data from other business functions, and use a wide range of standard and custom reports and dashboards to inform your HR strategy.

Higher Scalability

Instantly add more employees, teams, and locations to flair as your organization grows. Create new objects and records to scale up at any time.

Robust Data Security

As flair is built on Salesforce, it comes with advanced security features, such as role-based access control, data encryption, and threat detection.

“flair helps us streamline and automate processes related to employee management. From applicant tracking and attendance tracking to payroll and measuring OKRs, flair covers a wide range of use cases where we previously had to deal with workarounds when using Personio.”

Alexander Weltzsch, CEO of Dealcode
